

Smoke Alarms Save Lives!

- *Fire is a deadly threat to any home. It can strike anywhere and at any time.*
- *A Fire Department responds to a fire every 24 seconds in America.*
- *Smoke alarms provide early warning in the event of an emergency in the home.*
- *3 of every 5 home fire deaths resulted from fires in homes with no working smoke alarms.*

ARE YOU PROTECTED?

- Install smoke alarms on every level and in every bedroom
- Test smoke and smoke alarms regularly
- Replace batteries every six months or switch to 10-year sealed battery alarms
- Unattended cooking is the leading cause of fires in the kitchen. Be alert while cooking
- If your smoke alarm does sound, leave the home immediately and call "911" from your cell phone or neighbor's house.
- Alarms don't last forever. Remember to replace your smoke alarms every 10 years from the manufacture date.

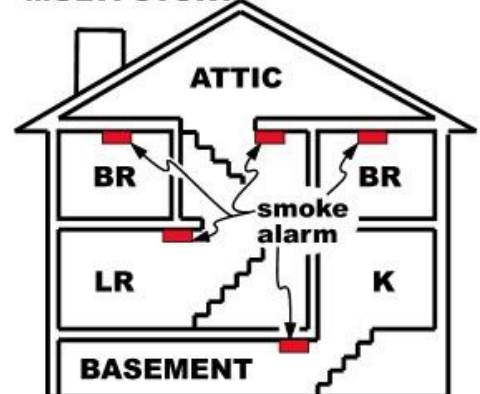

BRIGHTON AREA FIRE AUTHORITY INSTALLS SMOKE ALARMS AT NO CHARGE

We want to help ensure your family is protected. We will install smoke alarms in every bedroom, outside each separate sleeping area, and on every level of your home including the basement. If you only need replacement batteries, we can help. High ceilings are not a problem for BAFA. Please contact us to schedule your installation!

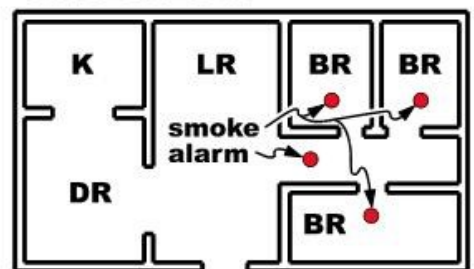

BRIGHTON AREA FIRE AUTHORITY
615 W. GRAND RIVER AVENUE
BRIGHTON, MI 48116
PHONE: 810-229-6640

PLACE ONE SMOKE ALARM ON EVERY FLOOR AND SLEEPING ROOM

MULTI-STORY

SINGLE LEVEL

Carbon Monoxide Detectors Save Lives!

- *Carbon Monoxide (CO) is an invisible, odorless and deadly gas that can be produced by any fuel-burning device.*
- *Known as “the silent killer,” CO poisoning is the number one cause of accidental deaths in the United States - responsible for an average of 4,540 deaths and more than 20,000 emergency room visits each year.*
- *Carbon monoxide alarms detect this poisonous gas and provide early warning.*

ARE YOU PROTECTED?

- Install carbon monoxide alarms on every level and in every bedroom
- Test carbon monoxide alarms regularly
- Replace batteries every six months
- Alarms don't last forever. Remember to replace your CO alarm every 10 years from the manufacture date.
- Professionally service your furnace, dryer vent, and chimney every year according to manufacturers instructions
- Never leave a car running in an attached garage
- Do not use generators, gas powered tools, or grills inside your home
- If your carbon monoxide alarm does sound, leave the home immediately for fresh air and call “911”

BRIGHTON AREA FIRE AUTHORITY INSTALLS CARBON MONOXIDE DETECTORS (Battery and Hard-Wired types)
